

# WARMTH, COMFORT AND SAVINGS

Keep your family cozy and lower your heating bills this winter. Save on a high-efficiency natural gas fireplace with cash incentives from NW Natural and Energy Trust.

## COMFORT YOU CAN ALWAYS COUNT ON

High-efficiency natural gas fireplaces are easy to operate and provide heat directly to the interior spaces where they are installed. Many natural gas fireplaces will work even if the power goes out, to ensure you still have warmth.

With Energy Trust contractors and **incentives of up to \$400**, you can lower the cost of your comfort.

To get started, visit **[www.nwnatural.com/offers](http://www.nwnatural.com/offers)**.

*Incentives are subject to funding availability and may change. Some qualifications apply.*

Find resources for do-it-yourself projects and low- to no-cost ways to improve the comfort, health and energy efficiency of your home at **[www.energytrust.org/diy](http://www.energytrust.org/diy)**.
