

Efficiency is the best way to turn down your monthly usage.

Using less saves energy and money. Let's help you do both! See the reverse for your rebate on a high-efficiency natural gas furnace, plus some handy fixes.

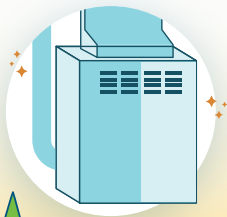

Turn over for rebates and tips.

Now is a great time to prep your home for using less energy.

Save money on a high-efficiency natural gas furnace upgrade, which itself saves energy and money! See how to get a rebate of **up to \$1,200** at [nwnatural.com/Offers](https://www.nwnatural.com/Offers). It can save you up to 15% on heating costs.*

Efficiency Tips!

View more free fixes and low-cost improvements at [nwnatural.com/Tips](https://www.nwnatural.com/Tips) for even better efficiency.

- Change your furnace filter now so you're not caught off guard later.
- Wash dishes and clothes with full loads only.
- Use draperies, awnings, blinds or shutters on all windows.

* Incentives are subject to funding availability and may change. Some qualifications apply. Visit [nwnatural.com/Offers](https://www.nwnatural.com/Offers) for details.
